

CHRISTIAN HALL

Front End Developer / 601.559.5049 / jchristianhall@me.com / christianhall.me

EXPERIENCE

Front End Developer

September 2016 - Present

GoNoodle - Nashville, TN

- Built out and maintained features for a large, complex web app that served tens of thousands of users across the world.
- Helped plan out and implement a variety of major infrastructure overhauls to the codebase, including moving from a monolithic app to a split front and back end and the migration from Marionette to React.
- Collaborated with product owners, designers, and engineers on a daily basis to make sure quality features users would love were shipped in a timely manner.

Lead Developer

July 2015 - September 2016

Good Design & Code - Jackson, MS

- Served as project manager and lead developer on multiple projects that were responsible for the majority of the agency's revenue.
- Introduced team to development best practices and tooling used in modern web agencies for both development and design.
- Managed a variety of different responsibilities on each project from technical consulting and implementation to design advice to client relations.

Lead Front End Engineer

May 2014 - July 2015

EdgeTheory - Ridgeland, MS

- Designed and developed both internal and external apps using modern front end tooling which significantly enhanced workflows and increased sales.
- Introduced front end best practices to team in order to streamline development, including a build system, style guides, and preprocessors.
- Crafted usable interfaces and conducted user studies alongside another designer to improve the user experience of apps.
